Whoever does not Gather with Me Scatters (Mt 12:30)

Value of A Life

No life is without value. Some have profound value, even when they cannot speak, walk, and can barely move. And some have immense value even when they have more medical problems than can be listed.

[Here is one of them.](#)

Canada, Free Speech?

Freedom of speech is a protected right in Canada according to section 2(b) of the Charter of Rights and Freedoms. It protects “freedom of thought, belief, opinion and expression, including freedom of the press and other media of communication”.

However, in Ontario, that is no longer so. One is free to support, recommend, promote, and encourage abortion. [A similar one cannot](#) advise or persuade another in opposition to abortion unless they are prepared to go to jail and pay substantial fines.

The legislatures, provincial and federal, are enacting laws which severely restrict any opposition to abortion.

Good Rejection

The New York Appeals Court has rejected the proposal that there is a constitutional right to assisted suicide. [And so have many other courts.](#)

A Gift

This 4 minute [video shows](#) a blind mother “seeing” her 20 week unborn son for the first time.

How can anyone insist this is isn’t a baby?

Why Should I be Pro-life

The baby leapt in her womb. (Lk 1:41)

Quote Without Comment

“Abraham Lincoln recognized that we could not survive as a free land when some men could decide that others were not fit to be free and should therefore be slaves. Likewise, we cannot survive as a free nation when some men decide that others are not fit to live and should be abandoned to abortion or infanticide. My Administration is dedicated to the preservation of America as a free land, and there is no cause more important for preserving that freedom than affirming the transcendent right to life of all human beings, the right without which no other rights have any meaning.” (Ronald Reagan)

Human Rights

According to pro-abortionists, human rights begin at or after the birth of a baby. According to pro-lifers, human rights begin at fertilization/conception.

[A Canadian pro-life group clarifies this disputed issue with some humor.](#)

Abortion Pill Reversal

It Works!

For women experiencing regret, and wanting to undo their decision, for taking the first of a two pill chemical abortion procedure, there is a viable option.

The [evidence is in and it is clear that the reversal works.](#) “This is an observational case series of 751 patients who decided to attempt to reverse the medical abortion process after taking mifepristone but before taking the second drug in the protocol, misoprostol.” The study of 751 patients, treated with progesterone to offset the effects of mifepristone, showed 68% or 64a% effectivity, dependent on the method of administration.

In [another related article](#), similar successes are confirmed.

Twenty Weeks

[These babies](#), were loved as family members and God’s gift.

It’s a Contradiction...

to decry discrimination against women and to promote “open season” on their unborn sisters.

CA FACT Act

The California legislature and governor grossly overstepped their authority when it passed the FACT Act, imposing oppressive regulations on Pregnancy Care Centers.

[The Supreme Court \(SCOTUS\) ruled the state action a violation of the First Amendment free speech provision.](#)

God Bless America

Not voting is the same as giving your vote to those who do not represent you.
