I am Jesus, the One You are Persecuting (Acts 9:5)

Discrimination

The Trudeau administration (Canada) has taken many actions to force support for abortion. Their department of health, in conjunction with the parliament, is attempting to remove all limitations to or restrictions on abortion. As well, there is an all-out effort to legalize assisted suicide and euthanasia.

One of the latest actions is a restriction in the application for the Canada Summer Jobs program.

According to the [National Post](http://nationalpost.com), "Churches and religious groups across the country are struggling over what to do with a confusing clause in the Canada Summer Jobs application that seems to require them to endorse access to abortions in order to get funding."

In fact, it does require applicants to affirm their support or they become ineligible to receive a grant.

It's a Contradiction...

to demand "freedom of speech" for pro-aborts and to deny the same to pro-lifers.

China Two-Child Policy

The Population Research Institute (PRI) has published [an article](#) indicating a new directive in China to change its "one child policy (mandatory abortion)" to a mandatory "two child policy (mandatory birth)".

This change is to correct the economic and cultural disaster which the Chinese government created so many years ago by dictating abortions.

Fatherhood

There is such a short time to teach our children to prepare them for life away from us. Fathers should make the most of the time they have with them.

Why?

Why is Roe vs. Wade (right to abortion) not settled law? Why is there still opposition, after 45 years of Roe vs. Wade

Quite simply it is because of you and your compatriots not "caving in" to those who have little to no respect for life in the womb.

The bottom line to all the political overtures, emotional outcry's, moral outrage, hysterical words, legal wrangling, and bioethical touting is, some people want to be able to kill unborn babies and others want to stop the killing.

Pro-lifers simply will not give up. No amount of opposition can make something that is so inherently wrong a right.

Ideal Man

The practical man is the man who knows how to get what he wants.

The philosopher is the man who knows what man ought to want.

The ideal man is the man who knows how to get what he ought to want. *Edgar S. Brightman*

State of Bioethics

Who would say human beings are not special, not unique; they are unexceptional?

That is the claim of many ethicists. We have no special place in the world and deserve no special treatment or recognition.

Archbishop Charles Chaput and ethicist Wesley Smith claim human beings, all of us, from fertilization, are unique, an embodied "revelation of God's glory demanding reverence and stewardship" (Rev Chaput) and the realization of "human exceptionalism" (Smith).

Are we just one more animal with no special purpose or are we a creation of God with inestimable value? That is the question at the center of bioethics today.

Why Should I be Pro-life

In 3 minutes and 16 seconds, viewers of [this beautiful video](#) are taken from the release of an egg (ovum) from an ovary to the presentation of the baby to her mother.

From the moment of fertilization this new human progresses through all the "stages" that we (all humans) have passed.

Quote Without Comment

"A government that can pick winners and losers in a debate on important cultural issues retains the power to silence debate on any topic. Everyone is vulnerable to lose their freedom when the state is given license to repress viewpoints it disfavors." (*Unknown*)

Stand on Sand

Pro-abortion activists oppose the Death Penalty but support Abortion

"They believe we should not kill the guilty, but have no problem with killing the innocent."

"They mourn the deaths of those killed by capital punishment, but seem unaware that abortion kills more people in half a day in

the United States than have been killed by the death penalty since 1976! (The number of executions since 1976 is 1,479, according to DeathPenaltyInfo.org, but

the number of abortions daily is close to 3,000, according to the [Alan Guttmacher Institute](http://AlanGuttmacherInstitute.org).)"

Why Must We

REINSTATE GOD

To Schools, Homes, & Work

As we travel from the unthinkable to the essential, [we have another profound example](#) which should cause us wonderment if not amazement.
